©2023 Shelby County State Bank,
130 S Morgan, Shelbyville, Illinois
62565

Member FDIC, Equal Housing
Lender

On July 1, 1993, Shelby County State Bank merged with the Bank of Findlay. At that time the Bank of Findlay became a full service branch of Shelby County State Bank. With over 136 million dollars in assets, Shelby County State Bank is committed to affirmatively help meet the credit needs of its delineated communities.

Findlay, Illinois is a community of approximately 750 people and is already included in Shelby County State Bank's delineated primary trade area. The President, Board of Directors, officers, and staff have made a commitment to ensure that the bank meets the day to day credit needs in all areas of its delineated community including those of individual consumers, businesses, and farms. The Findlay branch office will offer additional conveniences to the residents and businesses in and around Findlay. The Findlay branch employees have been informed of their obligations under the Community Reinvestment Act and the federal fair lending laws. They are well trained in the roles of quality customer service. Additionally, having a branch in Findlay allows Shelby County State Bank to ascertain credit needs, market credit product, and identify potential community development projects on an ongoing basis. The officers and employees of the Findlay branch are in an excellent position to gather community information for the bank and they have sufficient loan authority to respond and are fully integrated into the lending decision process. The officers of the Findlay branch office have been included in the Shelby County State Bank officer-call program, and have been instructed to contact those individuals which are knowledgeable about credit needs; for example, community organizations, local churches, business association, and local governmental agencies in and around Findlay. As the employees perform their customary business calls, participate in community volunteer efforts, or talk to customers who come to the bank, they will be trained to recognize opportunities for the bank to meet credit needs. We intend to improve our Community Reinvestment Act compliance program through the strength of our Findlay branch personnel.

Shelby County State Bank realizes the need to market its credit products practically to all segments of its delineated community to ensure that all segments are aware of the credit products that we offer. Our new branch office will provide a foundation for our marketing efforts in the Findlay area. The branch will be required to submit a quarterly report to the Board of Directors on the progress of their Community Reinvestment Act efforts and the marketing done at the branch level. In addition, the branch manager will be requested to keep the Board of Directors informed of any community development projects. This information will come from the relationship-building efforts with local units of government and community leaders. Branch personnel will be expected to identify potential projects for the bank to participate in, and can act as a liaison between the bank and the project developer.

Shelby County State Bank will continue to look for ways to effectively and efficiently comply with the Community Reinvestment Act and is excited with the addition of the Findlay branch and the opportunities that it can provide to better serve our entire delineated community.

On January 10, 1994, Shelby County State Bank opened its new branch office in the former Central Illinois Public Service office on West Main Street in Shelbyville. This is the fourth facility in Shelby County. The new branch is a direct result of a survey that indicated a need to serve our growing community with better access and expanded hours. The new branch office features two drive up lanes, two inside teller windows, a loan office, and a time/temperature sign along Route 16. The sign is available for community service announcements. The President, Board of Directors, officers and staff have made a commitment to ensure that the bank meets the day to day credit needs in all areas of its delineated community including those of individual consumers, businesses, and farms. The new branch will offer additional conveniences to the residents and businesses on the west side of Shelbyville. Management will continue to monitor branch transactions and consumer comments, and will further expand the branch services and hours as the needs of our customers dictate.

On April 1, 1995 Shelby County State Bank merged with the Strasburg State Bank in Strasburg, Illinois. Strasburg is a community of approximately 750 people, and is located approximately 15 miles southeast of Shelbyville, Illinois. It is already included in Shelby County State Bank's delineated primary trade area. The President, Board of Directors, officers, and staff have made a commitment to ensure that the bank meets the day to day credit needs in all areas of its delineated community including those of individual consumers, businesses, and farms. The Strasburg branch office offers additional conveniences to the residents and businesses in and around Strasburg. The Strasburg branch employees have been informed of their obligations under the Community Reinvestment Act and the federal fair lending laws. They are well trained in the roles of quality customer service. Additionally, having a branch in Strasburg allows Shelby County State Bank to ascertain credit needs, market credit products, and identify potential community development projects on an ongoing basis. The officers and employees of the Strasburg branch are in an excellent position to gather community information for the bank and they have sufficient loan authority to respond and are fully integrated into the lending decision process.

To offer more convenient service to our existing customers and hoping to attract new customers in the Northwestern part of Shelby County, a new branch was opened in Moweaqua in July 2008. Moweaqua is a community of approximately 1,800 people, and is located approximately 25 miles northwest of Shelbyville, Illinois. It is already included in Shelby County State Bank's delineated trade area. The new Branch Office features two drive-up lanes, three

inside teller windows, three offices and a conference room. Having a branch in Moweaqua allows Shelby County State Bank to ascertain credit needs, market credit products, and identify potential community development projects on an ongoing basis. The officers and employees of the Moweaqua branch are in an excellent position to gather community information for the bank and they have sufficient loan authority to respond and are fully integrated into the lending decision process.

Shelby County State Bank has never closed any branches
